

# The Only Fully Managed and Monitored Global Cloud Backup Solution that Supports Your Entire Digital Footprint

**KeepItSafe® Online Backup** is the ideal cloud backup solution for IT environments of any size — from small businesses to the largest enterprises. It is the industry's most secure, scalable and easy-to-manage online backup and on-demand data recovery service — and the only global cloud backup solution fully managed and monitored 24/7 by a team of experts. Should you ever lose data to a disaster, KeepItSafe Online Backup can immediately restore any missing files to your original servers or location you specify.

No matter the size or location of your organization, KeepItSafe Online Backup is the smart choice to protect all of your business data.

## Unique Benefits of KeepItSafe Online Backup

### Fully Managed and Monitored

- ✓ Managed backups with 24/7 support
- ✓ Proactive monitoring and notification
- ✓ Daily report inspection
- ✓ Emergency service at no charge

### Highly Flexible

- ✓ Supports all servers, databases, OS, apps, etc.
- ✓ Can be deployed in public, private and hybrid cloud models
- ✓ Unlimited scalability for devices, device types and locations
- ✓ Will restore lost data to any hardware you specify, at any location, anytime

### Highest Levels of Security, Encryption and Quality Control

- ✓ AES 256-bit encryption in transit and at rest (highest levels available)
- ✓ Uses military-grade data encryption technology
- ✓ ISO 27001 and SSAE16 certifications
- ✓ Meets and exceeds even the strictest data-security regulation

### Complete and Rapid Data Restoration

- ✓ Data is compressed, encrypted, and securely transferred to primary data centre
- ✓ Data is seamlessly and continuously mirrored to secondary data centre
- ✓ Lost data can be restored to your servers or other hardware with one click
